INTRODUCING OIL FREE,
MORE PERFORMANCE,
LESS ENVIRONMENTAL IMPACT.

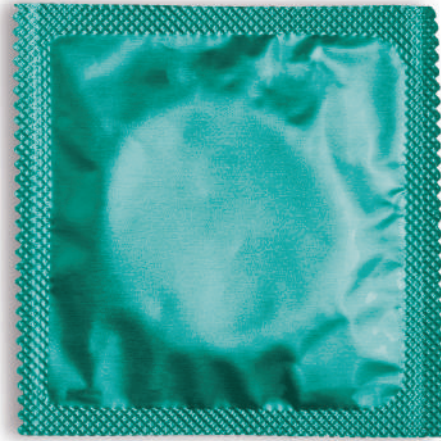

Fosber

simply better

www.fosbergroup.com

Simplify the technology. Simplify the running & operation. Optimise the results. This is our vision.

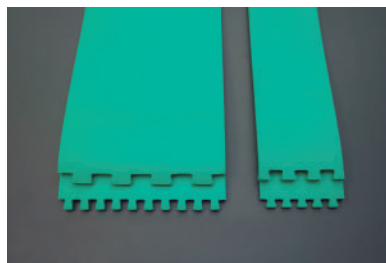

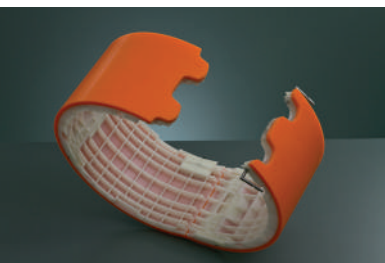

To meet the standards required by the food industry for corrugated packaging, Fosber has perfected its Oil Free technology and offers a Dry-End completely free of any blade lubrication, thus maximising the safe hygiene of the finished box. The Oil Free technology ensures the same cutting performance as on classic lines, but with greater reliability, significantly reduced maintenance costs and is better for the environment. **Less is more.**

Safe, flexible, easy mounting, high quality, hardness.

No matter the color if you use the authentic one.

The authentic knuckle locking system with flexible fiber net.
